ABOUT US

SPEEDTRACK specializes in the design, supply and installation of sports facilities. With more than 25 years of experience, our comprehensive knowledge and expertise on high quality installations using the latest technologies are enhanced through the extensive trainings and fieldworks at overseas installations in countries such as Switzerland, Germany, Italy, the Netherlands, Australia, New Zealand and Thailand.

The sharing of insights with industry-top global leading manufacturers and suppliers have provided us with invaluable knowledge and experience in this industry. This enables us to give the best in terms of product quality and service to our clients.

VISION

To be the lead in providing exceptional service and quality in the construction of sports facilities.

MISSION

To build sports facilities that are well-designed, functional and sustainable each and every time.

CORE VALUES

Clients First

We place our clients as our priority in partnership building and cooperation for the successful implementation of projects.

Continual Innovation

We seek continuous improvement and innovation in our products and services to deliver only the best for our clients.

Commitment to Excellence

We are committed in ensuring product excellence and safety for all aspects of our projects.

OUR SERVICES

Our experience team comprises of professionals, including indoor & outdoor specialist installers and engineers, to provide the necessary expertise and services to meet the requirements of your sports facilities. This encompasses providing licensed track surveyors & line markers as well as running track certificates.

Project Coordination

From project feasibility studies to site surveying and evaluation, cost estimating, value engineering, project scheduling, site logistics, quality control and project specific safety plan development.

Design Coordination

From design development and planning to provision of construction documents for numerous phases of design encompassing architectural, civil, structural, electrical, mechanical, plumbing, fire protection and process solutions.

Construction Management

Handle various phases in the implementation and construction of small and large-scale projects, be it to build, design, expand, renovate, complete or partial refurbishment, update from outdated to modern presence, change of use and enhancement or re-surfacing.

Maintenance & Repair

Provide cost-effective solutions for the aftercare or restoration of existing sports facilities, which may require repair due to wear-and-tear caused by time, weather and usage, such as maintenance or repairs of running tracks, artificial turfs and sports fields.

◀ **PROJECT COORDINATION**

Setting measurable objectives and identifying deliverables.

◀ **DESIGN COORDINATION**

Developing client's expectation, technical requirements and design solutions.

CONSTRUCTION MANAGEMENT ▶

Effective management of project schedule, scope, cost, quality, safety and function.

MAINTENANCE & REPAIR

◀ **TURF CARE**
Cleaning and maintaining surface of sand and rubber-filled synthetic turf

SURFACE CARE ▶
Cleaning and maintaining different synthetic sports surfaces in sports facilities
